

Series 1000

Model 1010

1" ELECTRONIC AIR CLEANER

FEATURES

HEPA-CLASS PERFORMANCE

Effectively captures and removes harmful airborne contaminants under 1 micron.

ELECTRONIC POLARIZATION TECHNOLOGY

E.P.T. turns media pads into giant magnets.

MOISTURE RESISTANT ELECTRONICS

Draws only 2 watts of power.

LOW PRESSURE DROP

Lowest pressure drop of comparable 1" air cleaners.

UNIQUE "POP-UP" CORNERS

for easy, user-friendly maintenance.

AFFORDABLY PRICED

Takes just minutes to install and has an extremely low annual maintenance cost.

POP-UP CORNERS MAKE MAINTENANCE A "SNAP"!

HANDY REFILL PACKS

As part of your regular maintenance, we recommend that you change the filter pads quarterly. The handy refill packs contain refills for four changes (8 refill pads). When placing an order, be sure to specify the dimensions and the model number of the air cleaner, NOT the

Series 1000

Model 1010

1" ELECTRONIC AIR CLEANER

HOW IT WORKS

The 1010 Electronic Air Cleaner operates on the principal of bi-polarization. It creates a polarized charge on the pads inside the filter. This safe and simple process turns the 1010 into a giant magnet that captures airborne contaminants such as smoke, dust, bacteria, viruses and molds.

The MODEL 1010 uses Electro-Fibre technology based on ELECTRONIC POLARIZATION TECHNOLOGY (E.P.T.). This innovation gives the 1010 an incredibly low pressure drop while maintaining HEPA-CLASS efficiencies.

LOW PRESSURE DROP SAVES MONEY

All filters restrict air flow. The degree of restriction is measured as "pressure drop" and will determine how long and how hard a fan motor will need to operate to achieve the desired heating or cooling level in your home. Therefore, selecting a low pressure drop filter will significantly reduce annual electrical, heating and cooling costs.

SPECIFICATIONS

Pressure Drop To 0.18 in.w.c. @300 fpm
 Normal Input Voltage 24 Volts (floating)
 Input Voltage Range 18 V min to 30 V max
 Power Consumption < 2 watts
 Apparent Power Allow 2.0 VA
 MERV up to 12
 Recommended Maintenance Every 3 Months
 Warranty 5 Years (Limited)

STANDARD SIZES

14 X 25 16 X 20 16 X 25 20 X 20 20 X 25
